Horse vaccination record

HestOS

Administrative working copy

Horse name

Registration / microchip ID

Owner

Copy completed vaccinations from the original veterinary record. Keep future appointments on the separate planning sheet.

Actual date	Vaccine type / product	Batch / lot	Administering veterinarian	Source document / reference	Notes

Dates: YYYY-MM-DD. Enter product and batch details exactly as documented. Leave unconfirmed information blank and explain it in Notes.

Keep original veterinary and horse-passport documents. This worksheet does not replace them. Your veterinarian determines the vaccination plan.

Planned follow-up

HestOS

Administrative working copy

Enter dates agreed with your veterinarian. A planned appointment is not proof that a vaccination was given.

After the visit, confirm the documentation and add the actual vaccination to Completed records. Update appointments separately.

Agreed date	Horse / ID	Planned action	Responsible staff	Status	Notes

Planned, Rescheduled, Cancelled, Visit occurred - check record

Keep original veterinary and horse-passport documents. This worksheet does not replace them. Your veterinarian determines the vaccination plan.
